Expenselt

Create, itemise, and categorise expenses effortlessly.

Submit receipts anytime, anywhere

With Expenselt[®], travellers no longer have to wait until they get back to their computers to start their expense report—they can simply take photos of receipts as they spend, and Expenselt takes care of the rest using artificial intelligence (AI) including optical character recognition (OCR) and machine learning (ML) to turn receipts into expense entries automatically.

You'll see a reduction in missing receipts, gain greater insights and control over spend, and improve employee satisfaction and productivity.

As easy as 1, 2, 3...

Take a photo of your receipt

Expenselt analyses and itemises the data

And voilà, your expense entry is ready in Concur[®] Expense

52%

Reduced number of errors in reporting expenses¹

43%

Reduced number of lost receipts¹

>85%

Of SAP[®] Concur[®] customers have Expenselt². It's a must-have!

Simplify expense reporting with Expenselt

DIGITISE RECEIPTS ON-THE-GO

Employees no longer have to wait until they're back to their computers to start expense reports – or risk losing paper receipts. They can submit receipts as soon as they're received.

NEAR REAL-TIME EXPERIENCE

You can view spend as it happens – before the month's end, helping you to stay on top of accruals and manage your monthly budget more effectively.

AI POWER UNLEASHED

Expenselt uses OCR, ML, user history, and other techniques to read and identify data, including the amount, date, location, vendor, and expense type. It automatically categorises and itemises expenses for you—even complex hotel bills.

STRENGTHEN CONTROL

Now you can look into your travel and expense spend at any moment. You can spot out-of-policy spend faster, get a tighter rein on compliance, and better control your costs.

MOBILE EXPERIENCE

Employees can easily use Expenselt within the SAP® Concur® mobile app, available on iOS and Android mobile devices.

GLOBAL SUPPORT

Expenselt can recognise and process receipts in many languages and gets better every day through machine learning.

STREAMLINED EXPERIENCE

Expense entries are automatically populated and matched with receipts and credit card charges. You can avoid errors and free up your employee's time for value-added activities.

SMART PREDICTIONS

Through ML, Expenselt makes smart payment type and expense type predictions, saving your employees time on expense entry. For example, it can predict the payment type, classifying the receipt as a card or cash charge. It can even detect if the card used is a corporate card using the last four digits found on your receipt.

“I love the Expenselt feature, it makes it so easy to record receipts and data in a snap. It's also great at converting data from a receipt/multiple receipts, to one concise report with no errors”

- SAP Concur User

ABOUT SAP CONCUR

SAP Concur is the world's leading provider of integrated travel, expense, and invoice management solutions, driven by a relentless pursuit to simplify and automate these everyday processes. With SAP Concur solutions, a top-rated app guides employees through every trip, charges are effortlessly populated into expense reports, and invoice approvals are automated. By integrating near-real-time data and using AI to audit transactions, businesses can see exactly what they're spending without worrying about blind spots in the budget. SAP Concur solutions eliminate yesterday's tedious tasks, makes today's work easier, and help businesses run at their best every day. Learn more at www.concur.co.in or the [SAP Concur blog](#).
