

# Is your AP Process being burdened because of GST?

GST poses challenges for all

“

We find GST a positive move for our business since this will help us consolidate and organize our whole supply chain. However, the transition has been a little bit of hiccup because it strains our existing system due to new compliance needs during invoicing and tax-filing.

“

We are completely dependent on our accounts team for GST compliance. We have a manually driven process with no investment in technology... Ideally, we prefer cloud based delivery for new technology.
