

Speed up your invoice processing, without the hassle

Activate a powerful invoice management solution and transform your organization.

Spending today is immediate, trackable and mobile so organizations can move faster and be more flexible. Invoice processing should be just as quick, easy and beneficial.

Your financial management and Accounts Payable (AP) teams are essential to driving your business forward. However, they often get bogged down with manual data entry, errors and handling exceptions. Additionally, focus on manual work complicates better cash management processes. Organizations need automation—as well as control and visibility—to keep track of user-driven spend and cash flow across their entire organization, and to transform AP into a hub of useful financial data.

Concur® Invoice frees your financial teams to drive business forward. You can use one simple system to approve purchase requests, capture invoices and make payments.

Concur Invoice eliminates piles of paper, drastically reduces invoice-processing time, and—because it integrates invoices with T&E payments in a single system—provides one dashboard to monitor and manage all your business spending. You will have actionable insights into your organization's spend before, during and after it occurs to help you identify opportunities to better manage your bottom line.

Take control of the numbers.

Consolidate spend from invoices, travel and other expenses, and get forward-looking, real-time insights.

Turn paper piles into predictable cash flow.

From authorization to supplier payment, Concur allows you to efficiently manage your spend, empowering leaders to better predict and manage cash flow.

Expand your business, not your staff.

Put power in the hands of spenders and approvers with Concur's robust workflow, freeing other employees to focus on strategic tasks.

Manage your spend anywhere and anytime

Concur Invoice allows your organization to capture and automate paper and electronic invoices, and integrate those payments into a single system for managing all spending. Track every penny in one AP system—and access it anytime, anywhere with the Concur mobile app.

Experience the benefits.

► Automate *all* of your AP.

Concur offers a full solution for AP automation with Invoice, Travel and Expense, putting an end to siloed transactions and providing you a holistic view of all spend.

► Effectively manage cash outlays.

Concur Invoice gives you visibility and allows you to pay vendors when invoices are due or even capture early payment discounts—freeing you to more effectively utilize your available cash.

► Capture invoices your way.

Concur can accept e-invoices, use OCR technology to save your staff time in processing paper invoices, or manage the entire process of handling paper invoices.

► Make the match.

3-Way Match from Concur automates the time-intensive and error-prone process of matching invoices, POs and GRNs. Everything you pay for is verified against everything you get—automatically. Mismatched figures, errors and exceptions are flagged *before* payments go out the door, saving your business labor hours, time and money.

► Track attendee spending.

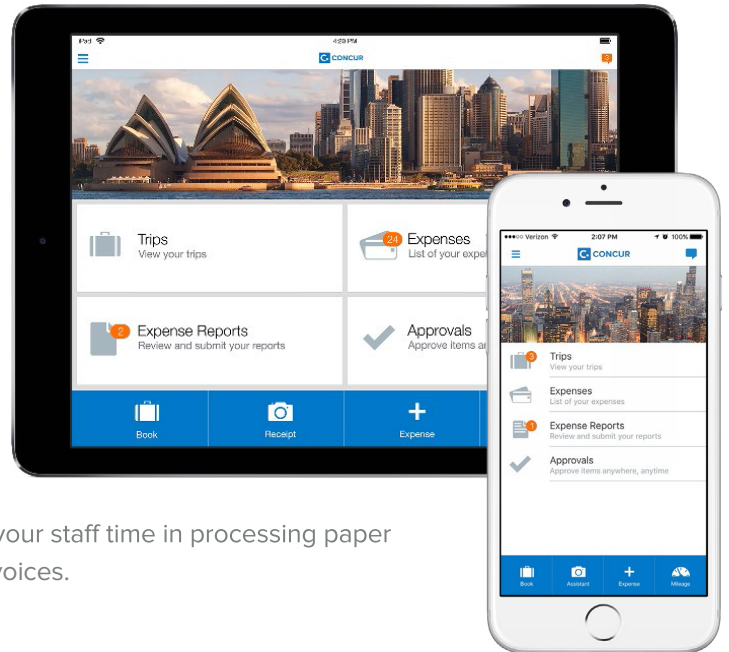

When the same person accrues both invoices and expenses at an event or meeting, keeping track of that spend can get tricky. With Attendee Tracking—available if you have both Concur Invoice and Expense—you can see the complete spend for each individual, across both expense reports and invoices.

► Sync with one click.

Concur seamlessly integrates with QuickBooks and NetSuite—along with other partners and vendors—with one-click syncing, eliminating your need to export or import files or enter data manually.

► Streamline purchase requests and automate approvals.

Employees can request purchases through the intuitive Concur platform, and those requests are quickly validated against your purchasing policies and routed for approval—which managers can do on the go. Robust workflow options allow for several levels of approval, complex coding and allocations across departments.

About Concur

SAP Concur® solutions take companies of all sizes and stages beyond automation to a completely connected spend management solution encompassing travel, expense, invoice, compliance, and risk. For more than 20 years, these leading, innovative solutions have kept customers a step ahead by delivering time-saving tools, connected spending data, and a dynamic ecosystem of diverse partners and apps. User-friendly and business-ready, SAP Concur solutions unlock powerful insights that help businesses reduce complexity and see spending clearly, so they can manage it proactively.
